

Class Rep of the Month - November 2019

What advice do I have for other class reps:

'Be brave. Don't back off. Be someone who your classmates can place their confidence in to get the issue resolved. Use your expertise to help out, if that doesn't work, speak to the lecturer, if that doesn't work either, go to the course management; you might end up helping your course-mates in something they didn't even know that they needed help in.'

Khizer Ahmed

Business Analysis and
Technology Management, Year
